County: Los Angeles

ADD DATA CUSTOMIZE

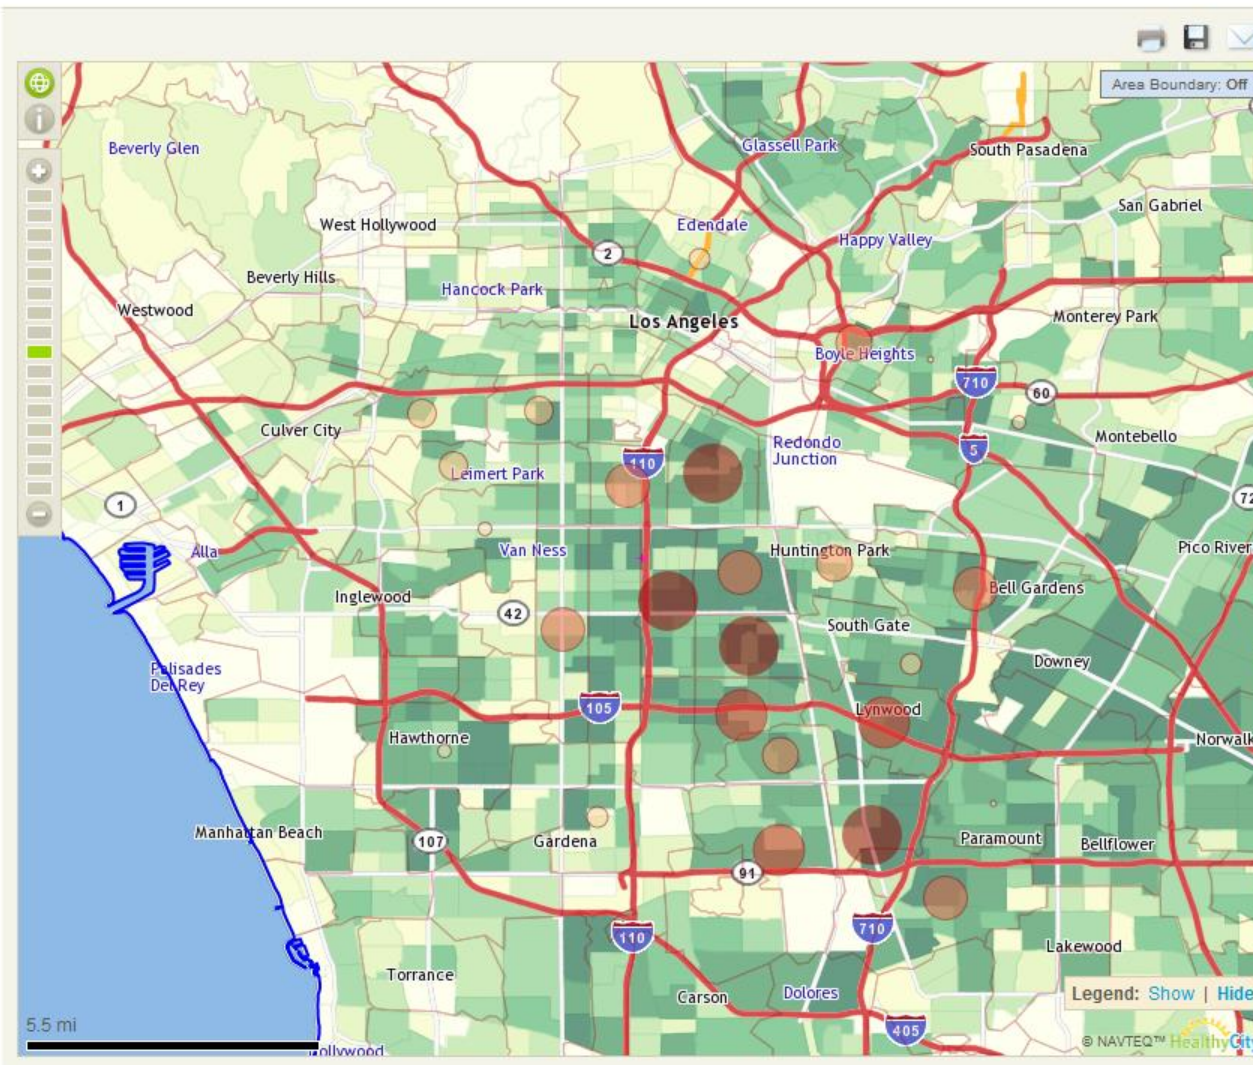

See on Chart

Each visit represents a Los Angeles County resident who was treated and discharged alive from an emergency department in a licensed hospital in California. A single individual is counted more than once if he/she had multiple injury-related emergency department discharges. Firearms injuries include all injuries from firearms including handguns, shotguns, and rifles. This category does not include injuries from air guns, BB guns, paintball guns, or explosives.

Data Source: Office of Statewide Health Planning and Development (OSHPD) through Los Angeles County Department of Public Health Injury and Violence Prevention Program (LAC-DPH-IVPP)

Recommendations for the Taskforce

- Do not ignore the interaction of Poverty & RACE
 - Systemic racism as a unique driver of poverty & disparity
 - Poverty cutting across race
- Explore underlying drivers / upstream factors
 - Rooting out bias baked into public systems
 - Broader/more inclusive economic development models
 - Promote equity (to mitigate past harms)
 - Balance political power and access
- Be explicit about interaction between silos/issue areas
- Be clear of typology of need – by geography
- Promote a collective narrative for a new California
